No 1, Year 30

June 2024

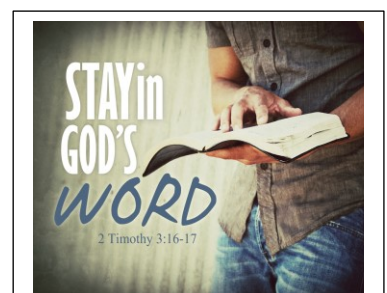

Our Dickson teaching our children a worship song with actions.

Shouts of Joy to you all around the world from our big family here in Rivers of Life Ministries in the heart of Borneo. Many months have passed since our last newsletter, more than was planned, but finally we managed to find time to get this issue done. A lot has happened again in the last six months not just here in the jungles of Borneo but around the world. I'm not sure if you have noticed but more and more of our freedoms and choice making are gradually being eroded and bit by bit taken away from us. The bizarre wokeness evidenced around the world defies all logic yet it's so alarming to see how many people are so gullible and join this trend. Banks are closing down their branches, ATM's are removed, cash & cheques frowned upon and on the way out, and there seems to be a real push to create a cashless society around the world. Ai seems to be more and more encroaching on our doorsteps and soon we will be unable to buy or sell anything without Ai. Sounds familiar? Of course, we know from scripture that these are signs of "the end times". This doesn't mean that we lose hope and become fearful but that we get ready. Not ready to hide or remove ourselves from society, like some are suggesting, but quite the opposite. We are to shine for Jesus even more so now than ever before, showing people the way that will lead to God.

Here in the jungles of Borneo amongst the many tribes Ai is also creeping in, in an alarming rate, almost forcing people to get a handphone otherwise they cannot survive and do business with anyone anymore. As we live in this time and moment now with all these new challenges, we continue to obey the Lord who commands us to: "Go and make disciples of all nations, baptizing them in the name of the Father and the Son and the Holy Spirit. Teach these new disciples to obey all the commands I have given you. And be sure of this: I am with you always, even to the end of the age". Mathew 28:19-20

Thank you to all of you who in same way or form help us to do just that, making disciples of all the tribes still considered unreached here in the remote regions on this wild island. Your wonderful support is bringing tribal people into the Kingdom of God. How awesome is that!

We can never avoid strife in the world around us, but when we fix our thoughts on God, we can know perfect peace even in turmoil. As we focus our mind on God and his Word, we become steady and stable. Supported by God's unchanging love and mighty power, we are not shaken by the surrounding chaos. Do you want peace? Keep your thoughts on God and your trust in Him.

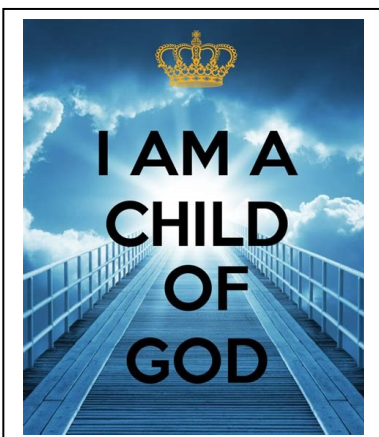

Today we see the results of sin in our own land: pollution, crime, addiction, poverty. Sin affects every aspect of society so extensively that even those faithful to God suffer. We cannot blame God for these conditions because sin has brought them about. The more we who are believers renounce sin, speak against immoral practices, and share God's word with others, the more we slow our society's deterioration. We must not give up: Sin is rampant, but we can make a difference.

Our missionaries from left to right: Top: Wei Ling from Malaysia, Esther from Holland, Antke from Holland, Ronny from Australia, Wendy from Holland, Jean from Malaysia. Bottom: Dickson from Malaysia, Paul from UK, Lewis from Australia (just left), Lodi from Holland, Harry from UK, Daniel from Belgium, Vince from Malaysia.

The vision that the Lord gave us many years ago was to prepare a place in the jungles of Borneo to house 1000 impoverished children and youth and school 2000 children. 1000 children would live 24/7 in this village and the other 1000 children would come to our schools each day but after school go home to their families and villages. Hence 21 years ago we started building this Living Waters Village on the land (jungle) the Lord showed us to purchase. Since then, many buildings have been built, such as, dozens of homes, schools, clinics, bakery, workshop, training center, worship centers, storage buildings and an immense infra-structure from roads to electricity supply and grid, water supply network, sewerage system etc. It has been an incredible journey with God, trusting Him for absolutely everything and over all those years He has never failed us.

I have noticed though that the bigger our village becomes the more complicated everything seems to become as well. Challenges and immense frustrations seem often to be the order of the day with no end in sight but, none that God can't handle. A solution eventually is always found and often in the most unexpected way. The success of building and running such a ministry does certainly not depend on how many buildings you have or how beautiful they are, even though they are very important to have in order to be able to function properly. The most important aspect is of course its people, and more specifically its leaders. Leaders who have a personal relationship with the Lord. Who walk humbly with Jesus daily. Who have

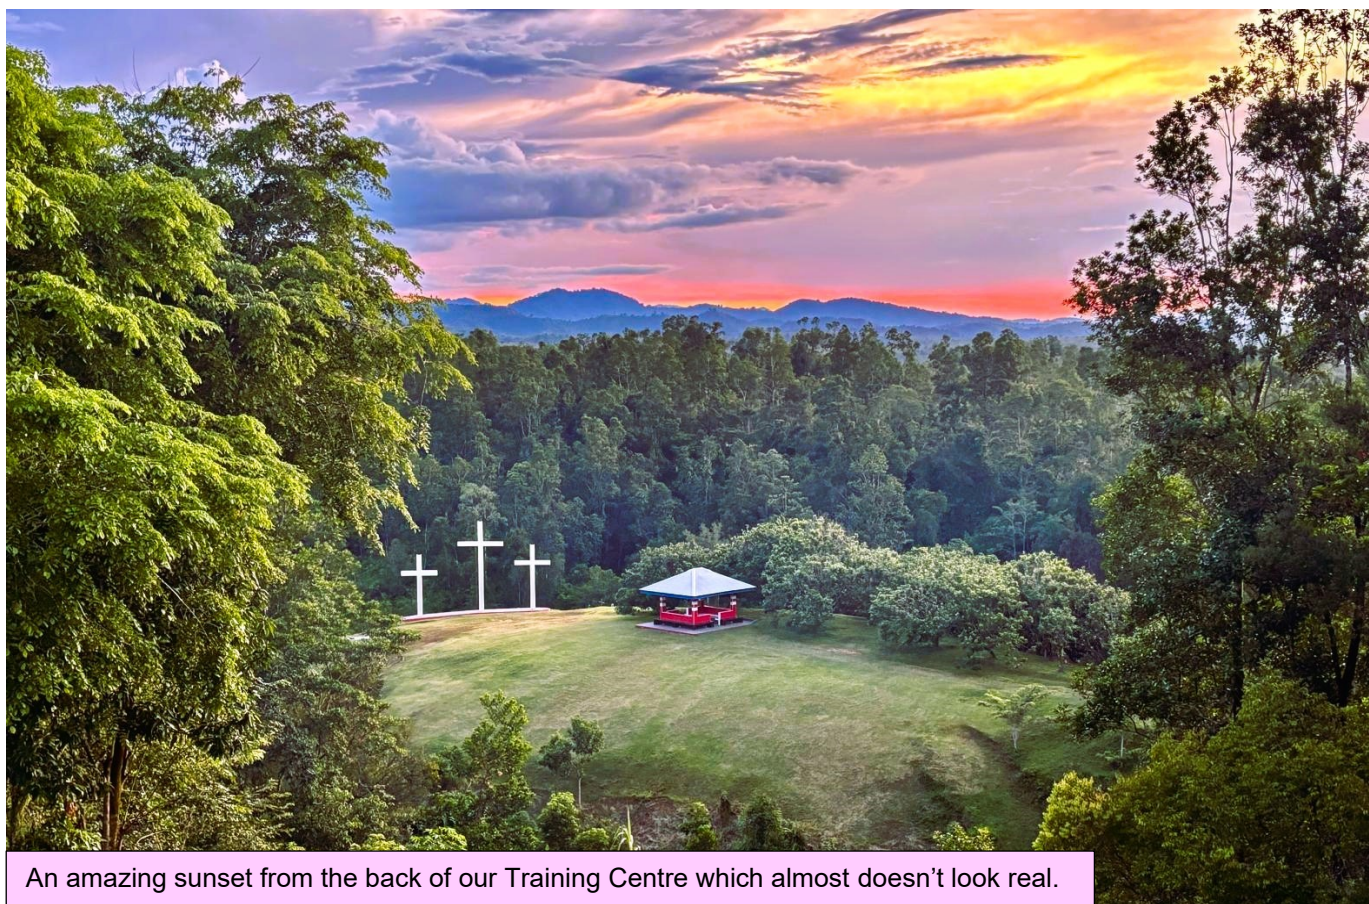

Those who plant in tears will harvest with shouts of joy. They weep as they go to plant their seed, but they sing as they return with the harvest. Ps 126:5-6

counted the cost in following Him. Who know that without Him we can do nothing. Who have totally surrendered their all to Him and have put Him first in their lives above everyone and everything. Who rely on the Holy Spirit to help make the right decisions every day. We are so blessed here with such leaders. All our missionaries are God sent and all are blessed and anointed with different gifts and talents to complement our team here. So too, many of our local leaders, who have grown up here in our village over the years, whom are now board members, house parents, pastors, teachers, church-planters, lecturers and departmental leaders, all serving the Lord here with a passion for Him and a passion to see their people succeed. We all know we are children of the Most-High God, entrusted with the Holy Spirit's power and authority over the enemy, to help bring souls into the Kingdom of God. What a humble privilege. We also know that none of us are perfect, we all have our flaws and sins to deal with, which the Lord helps us with, but we so thank the Lord that we are united, one in heart and purpose and so able to move forward getting the job done which is so incredibly fulfilling. God is so good.

Sacrifices are not bribes to make God overlook our character faults. We can't exchange good behaviour in one area for bad behaviour in another. If our personal and business dealings are not characterized by justice, no amount of generosity when the offering bag is passed will make up for it.

We all know we are children of the Most-High God, entrusted with the Holy Spirit's power and authority over the enemy, to help bring souls into the Kingdom of God. What a humble privilege. We also know that none of us are perfect, we all have our flaws and sins to deal with, which the Lord helps us with, but we so thank the Lord that we are united, one in heart and purpose and so able to move forward getting the job done which is so incredibly fulfilling. God is so good.

An amazing sunset from the back of our Training Centre which almost doesn't look real.

Funds arrived from a beautiful Singapore family to buy a new large truck (see left) which we desperately needed. It took 3-4 months from purchase to delivery and we are now in the possession of this truck which is fantastic. Everyone was super excited and praised the Lord for His provision through this family.

How great is our Lord! His power is absolute! His understanding is beyond comprehension! Ps 147:5

**NEVER FORGET
WHO YOU ARE
IN JESUS**

Blameless living safeguards our life. Every choice for good sets into motion other opportunities for good. Evil choices follow the same pattern, but in the opposite direction. Each decision we make to obey God's Word will bring a greater sense of order to our lives, while each decision to disobey will bring confusion and destruction. The right choices we make reflect our integrity. Obedience brings the greatest safeguard and security.

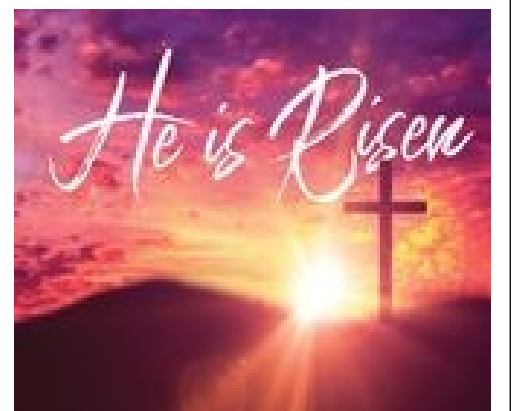

Jerusalem on a donkey so many years ago, when all the onlookers then waved their palm leaves shouting and praising the King of Kings. It is so good to be reminded of those events that took place so many years ago which have shaped our future.

Good Friday in our village commenced with an early service reminding us all of the enormous sacrifice Jesus made for mankind. Something He willingly did because He loves us so very much. Many of our teenagers put on a spectacular drama, playing out the many stages from when Jesus was captured in the Garden of Gethsemane till His crucifixion. Their drama was played-out from within the church building to outside, along our road (like the "Via Dolorosa" or the "road to Golgotha") past the training center down to our graveyard where three massive crosses tower over the area. Our youth erected some small crosses there for the play. A short word from scripture was given to remind us all never to forget what Jesus went through for mankind and how the thieves who were crucified with Christ ended up in opposite eternal places.

Sin is enticing because it offers a quick route to prosperity or pleasure and makes us feel like one of the crowd. But when we go along with others and refuse to listen to the truth, our own appetites become our masters, and we'll do anything to satisfy them. Sin, even when attractive, is deadly. We must learn to make choices, not on the basis of flashy appeal or short-range pleasure, but in view of the long-range effects. Sometimes this means steering clear of people who want to entice us into activities that we know are wrong. We can't be friendly with sin and expect our lives to remain unaffected.

To be happy and do good are worthy goals for life, but we can pursue them in the wrong way. God wants us to enjoy life. When we have the proper view of God, we discover that real pleasure is found in enjoying whatever we have as gifts from God, not in what we accumulate.

During Easter we also had 40 young people water-baptized in our river which was fantastic. It's always such an incredible joy to see young people embrace Jesus, no longer wanting to conform to the fashionable things of this world but to commit their lives to follow Christ. It is such a blessing to be able to witness this again and again. God is so good.

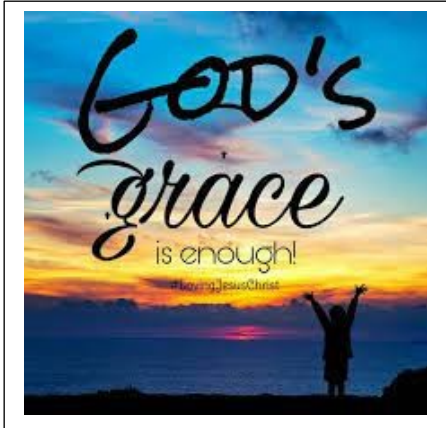

40 youth receiving water-baptism, committing their lives to Jesus. A new creation as their old life is washed away.

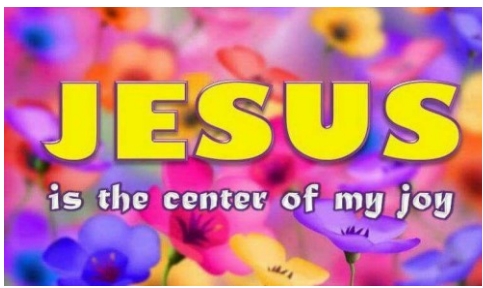

Mum's Fellowship:

In April our ministry invited some people to ran a 3-day women's training retreat here in our village. Lots of our mums, and soon to be mums, as well as some from around the region enjoyed being encouraged and challenged by great women of faith in scripture and to hear that God has a great plan and purpose for every woman. Of course, lots of fellowship was enjoyed by all, with lots of cups of coffee and tea as well as lots of prayer, encouragement and hugs. On the final day husbands and fiancées were allowed to join as well to be ministered to as couples. All in all, it was a great success and encouragement to all. We were so grateful for the team that came over and super grateful to the Lord for blessing our mums and couples this way.

Our women's training retreat which turned out to be a great blessing and success.

We may assume we are blessed when life goes well and cursed when it does not. But trouble is a blessing when it makes us stronger, and prosperity is a curse if it entices us away from God. If you are facing trouble, ask God to help you grow stronger for Him. If things are going your way, ask God to help you use your prosperity for Him.

House named Dina almost completed.

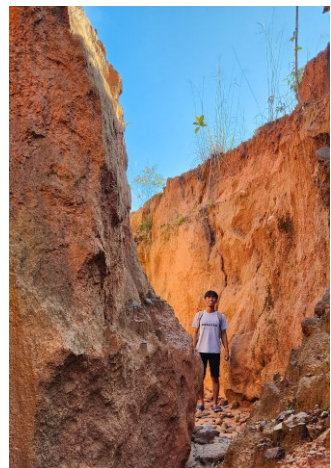

Building Progress:

Building wise much has yet again been achieved since our last newsletter. The 5 children’s homes named Dina, Lewi, Ruben, Gad and Asyer are almost ready to be occupied. It has taken a lot longer than we anticipated but this is due to the enormous amount of infrastructure that had to be built around each house. Most of our buildings and roads are built on top of hills which have been levelled on top and therefor require a lot of erosion prevention. Those areas required walls made out of massive cages of galvanized wire filled with granite stones which are built up like a staircase with each cage pinned in the ground by several 4 meters long iron-wood poles. Just for these 5 houses we have used hundreds of truckloads of large granite rocks. On top of that a number of massive concrete drains were built starting on top of the hills where the roads

Houses named Lewi & Ruben almost completed.

are built to the valley below. This also required a lot of hard work by many people to build a drain that will withstand and channel the enormous tropical downpours in order to prevent the hills being carved out and eroded away. For these 5 houses a water tower had to be built which will house 2 water tanks in order to create enough water storage and water pressure for each house. Also, a massive concrete water tank which will hold around 100.000 litres of rain water for drinking was erected and so too a large septic tank. Another 3 houses are also coming along really well with roofs going up, ceilings going in and tiling being done. However, for these 3 houses we also need to do a lot of erosion prevention hence hundreds of cages with granite stones and also to build a large water-tank too to catch the rainwater for drinking. Septic tanks for these houses have already been completed.

Our Danang standing in a drain carved out by several tropical rainfalls. The road is above right. Hence the need for concrete drains to prevent this sort of damage.

A lot of erosion prevention to be built for almost every building we erect.

With joy you will drink deeply from the fountain of salvation! In that wonderful day you will sing: “Thank the Lord! Praise His name! Tell the nations what He has done. Let them know how mighty He is! Isaiah 12:3-4

When you feel broken and bruised or burnt out in your spiritual life, God won’t step on you or toss you aside as useless but will gently pick you up. God’s loving attributes are desperately needed in the world today. Through God’s Spirit, we can show such sensitivity to people around us, reflecting God’s goodness and honesty to them.

Dishonesty is a difficult sin to avoid. It is easy to cheat if we think no one is looking. But dishonesty affects the very core of a person. It makes him/her untrustworthy and untrusting. It eventually makes him/her unable to know him/herself or relate to others. Don't take dishonesty lightly. Even the smallest portion of dishonesty contains enough of the poison of deceit to kill your spiritual life. If there is any dishonesty in your life, tell God about it now.

Two of our generator sheds have been enlarged substantially and fitted with new roofs. The reason for doing this was to make the generators more accessible for service and repairs, as well as to make it easier to pull them out of their location when they need to be replaced.

Six of the twelve new High School class-rooms are ready to be used for the new school year in August. We are still waiting for the galvanized

fencing for the six new class-rooms on the top floor hence we cannot use them until that has been erected however, we will be able to use those class-rooms for storage area for the time being, something we seem to always desperately are in need of.

The five large undercover areas at the High school have all been completed now which is fabulous particularly for all those rainy days but also for educational outdoor activities during the heat of the day. An extra 40 toilets have been erected for the high school which are all operational.

Four homes being built for couples who are trained to become house-parents. On top will be 2 floors of storage area.

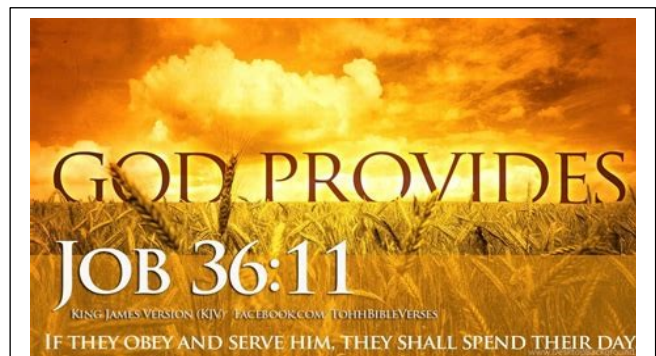

A team of our young men who have learnt to be roof-builders. They do an incredible job.

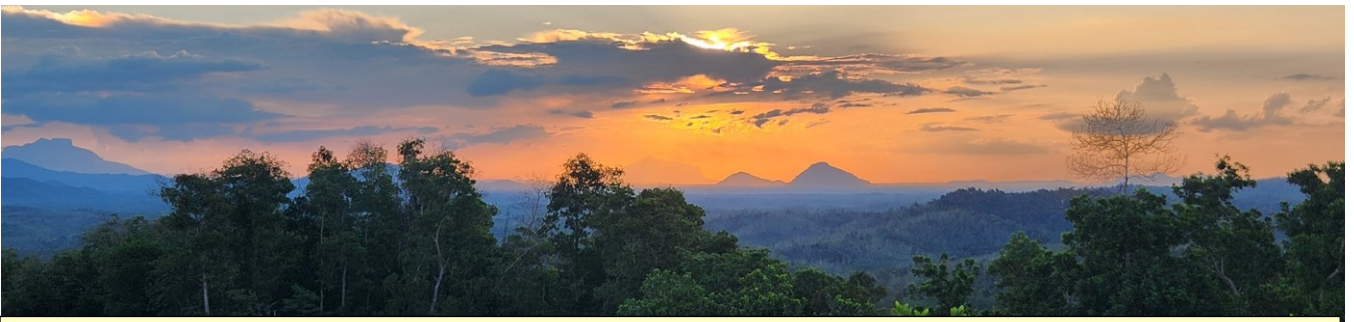

A large rain water tank being erected to provide drinking water for 8 houses.

The next phase for the high school is building an undercover area in the courtyard of the entire school. For us this will be another huge undertaking and challenge but difficult challenges have never phased us in the past. We always ask God for wisdom to know how to do things and how not to do them. Our projects usually take a lot longer to build but that is due to us building so many projects at the same time and, we don't have much accessibility to modern equipment to speed up construction but we get by and eventually get the job done. All our projects are built to last which require little upkeep and maintenance so that many generations of children and youth will be able to call this place home where they will be able to make something beautiful of their lives.

Too often we expect God to help us in our time of trouble even though we may have ignored Him in our time of prosperity. But God wants a lasting relationship. Are you trying to build a lasting friendship with God, or are you merely using Him occasionally to escape trouble? What would you think of your family or friends if they thought of you only as a temporary resource?

An incredible view from on top of our highest point on our property where we often go for prayer.

Our very first solar panels which gives Titus house electricity 24/7. What a blessing.

Our Samuel doing a wonderful job servicing one of our many generators that constantly require maintenance and upkeep. It's a huge responsibility for him and his team.

One of our large houses named Titus, where 30 children, youth and house parents live, is now fitted with solar panels and storage batteries. The entire electrical needs of this house is now powered by these solar panels which is absolutely awesome and amazing. All the equipment was donated by a wonderful Dutch family who run a small solar business in Holland. We were able to bring all the equipment in a container, and the owner of the business, a lovely brother in the Lord, even came to our village here with a friend and helped to install everything, while at the same time teaching our guys how to install and maintain such a project. We hope that this is a first of many such projects which will substantially cut our diesel consumption for our generators.

Funds were received from some fantastic sponsors to be able to buy 4 new generators that desperately needed replacing. The gifts were initially going to help us to purchase all 4 generators but after doing a bit of research re which generators we should buy this time, we found that most brands which were trusted for decades are now no longer manufactured in those countries where once high quality and performance were the most important aspect of their brand. Now their brands are manufactured in countries with low quality standards and their quality and performance have substantially eroded. Why any trusted brand would want to do that is beyond me. We have tried a number of

brands over the 20 years since Living Water Village exists and have experienced ourselves precise that decline in quality. However, some trusted brands still produce good, reliable, high quality and high-performance generators in their original country but, the prices are more than twice the cost of these other ones. Still, research tells us that if you are using a generator every day, which we do, you are better off in the long run to have reliable, high-quality generators as their life span is anywhere around 20 years but a low quality one will only last for 3-5 years if you use them every day. Hence, for us it makes therefor more sense then, to buy the more expensive, high quality, high performance, economical machines which are really cheaper in the long-run. And so, we have purchased 2 new generators manufactured entirely in Japan and so too all its components. They are now on the way as we speak and they should arrive in the next few months which will be a fantastic blessing. But it does mean then that we still need to purchase 2 more generators. Please pray with us that the 2 purchased new machines will arrive speedily and that funds will arrive for another 2 generators so that our electricity supply won't be disrupted in this village, which is really now a small town, in the middle of the jungle. A huge thank you to those wonderful people who already gave generously to buy the first 2 generators. Really fantastic.

Every day has 24 hours filled with opportunities to grow, serve, and be productive. Yet it is so easy to waste time, letting live slip from our grasp. Refuse to be a lazy person, sleeping or frittering away the hours meant for productive work. See time as God's gift, and seize your opportunities to live diligently for Him.

The world says to hold on to as much as possible, but God blesses those who give freely of their possessions, time, and energy. When we give, God supplies us with more so that we can give more. In addition, giving helps us gain a right perspective on our possessions. We realize they were never really ours to begin with, but they were given to us by God to be used to help others. What then do we gain by giving? Freedom from enslavement to our possessions, the joy of helping others, and God's approval.

RIVERS OF LIFE MINISTRIES BORNEO - LIVING WATERS VILLAGE

Our Vision:

To reach and disciple the remote tribes of Borneo with the Gospel message of Jesus Christ.

Our Mission:

1. To provide humanitarian aid to the many tribes in the jungles of Borneo, targeting particularly children and youth in great need.
 - Feeding the hungry
 - Aiding the sick
 - Sheltering the homeless
 - Parenting the orphans
 - Educating those that cannot afford it – from primary school, secondary school to vocational training.
2. To evangelise and plant viable churches in remote areas.
3. To teach and guide each person to a personal and intimate relationship with God.
4. To disciple, train and equip leaders and church-planters.
5. To raise up a generation of leaders to pass on the ministry to them.
6. To provide opportunities for teams from various denominations around the world to taste and experience “hands on missions”. (Equipping the church with “Doers”).

Our Siko showing off literally 'fruit for his labour'. We had a fantastic crop of rambutan fruit this season enjoyed by all for many months.

I would like to take this opportunity to thank everyone again who faithfully pray for us and send us financial support for our children, youth, church-planters, personal and projects. We can't thank God enough, and thank all of you enough, for your marvellous input in the Lord's work here on this island of Borneo. We generally don't tend to send people a receipt and/or thank you note for their gifts plainly because we just don't have the hours and people to do it. All our local leaders, missionaries and other volunteers are inundated with responsibilities which make our days already very long.

However, some countries laws demand us to send out receipts which of course we adhere to. Other countries have laws that prevent banks to hand out people's personal information or we may only receive a name but not an address etc. If you however insist on a receipt and/or acknowledgement please don't hesitate to ask us. We will gladly issue you a receipt but only on request.

We often are willing to observe customs merely for the sake of tradition; how much more should we obey God's Word because it is eternal.

Whether we buy or sell, make a product or offer a service, we know what is fair and honest and what is unfair and dishonest. Sometimes we feel pressure to be dishonest in order to advance ourselves or gain more profit. But if we want to obey God, there is no middle ground; God demands honesty in every business transaction. No amount of rationalizing can justify a dishonest business practice. Honesty and fairness are not always easy, but they are what God demands. Ask Him for discernment and courage to be consistently honest and fair.

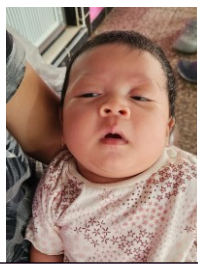

LWV Family News:

In the last six months we have once again seen a lot of family activity.

Our Rhea.

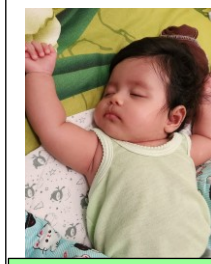

Lots of marriages, births and pregnancies. Our Musa & Esi have even adopted a beautiful baby girl named Rhea who came up for adoption. Her natural mum didn't want her and was ready to adopt the baby out to people from another religion but 'lo and behold' Rhea ended up here with us and we couldn't be happier. She is such a delight and we know that the Lord has a beautiful plan for her life. Musa & Esi are already house-parents of 12?? children and do a wonderful job of it and all their children now are greatly blessed with an extra baby who of course receives lots of cuddles.

Our Leora

Our Carlos

Our Elora.

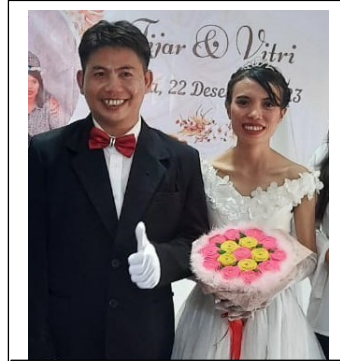

Our Maysha.

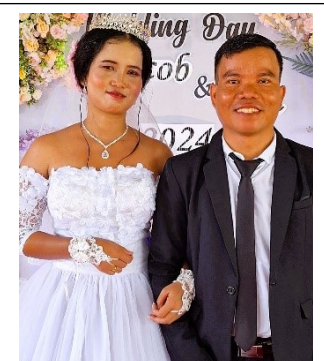

Our Bobot.

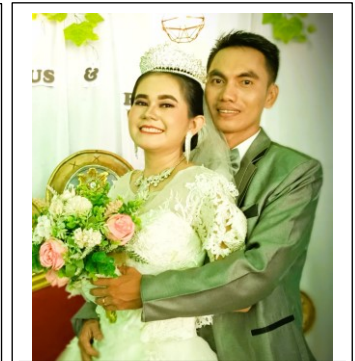

Our Herpanus & Lili.

Our Tijar & Yora.

Our Ima & Yakob.

Our Ratna & Darius.

For donations and/or sponsorships please visit our website www.livingwatersvillage.com under "sponsorship/giving" and click on your country for details.

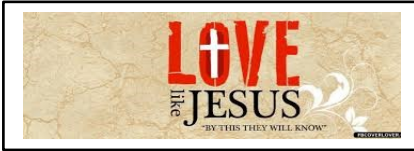

Our book "Miracle Zone in the jungles of Borneo" is available now in many countries. Please visit our website to find out how you can order and purchase via the internet. Makes a great gift for anyone

Frequently asked question:
How do I leave something to LWV in my Will?
 It is best to contact your legal advisor, solicitor or the Public Trust Office or its equivalent in your own country, on how to do this.
Our ministry name:
Rivers of Life Ministries Borneo.
and/or Living Waters Village Borneo (Yayasan Sungai Kehidupan Borneo)

Have you recently moved and **NOT** let us know your new address and/or email address yet? Please email us on ronnyheyboer@gmail.com to let us know your new address. Thank you in advance.

Notice for our UK sponsors/supporters:
 Our charity in the UK called 'Kingdom Supplies' are looking for two extra trustees to join our team of trustees. Also, we are looking for someone to help with organising my (Ronny's) biannual UK itinerary?
 Anyone willing to help please contact Luc De Coster at luc@kingdomsupplies.co.uk

We may condemn our predecessors for their failures, but we are twice as guilty if we repeat the same mistakes that we recognize as failures. We may be so ready to direct God's message at others that we can't see how it touches our own life. Make sure you are willing to take your own advice as you teach or lead.

Church-Planting amongst the tribes in Borneo.

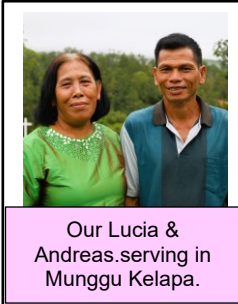

We just recently brought all our Church-Planters to Living Waters Village for some Fellowship together. Because of the vast distances we don't often get to see each other. All our children, youth and adults here in our village pray for them every day and are super excited when they come over and share with us all what God is doing in them and through them. We are very proud of them for their willingness to serve the Lord in remote, difficult area's where many tribal people are still entrenched in extreme idolatry. Please keep praying with us for their love for the Lord to intensify, their ministry to expand exponentially and to protect them from the witch-doctors grip in the various regions. Enclosed are photos of most of our church-planters.

Our Ardi & Meri serving in Tumbang Setoli & Tumbang Magin.

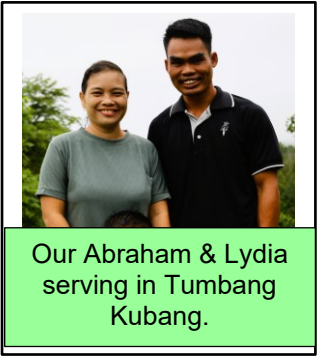

Our Heti & Deo serving in Telogah.

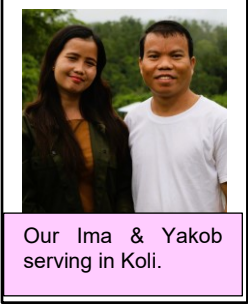

Our Lucia & Andreas.serving in Munggu Kelapa.

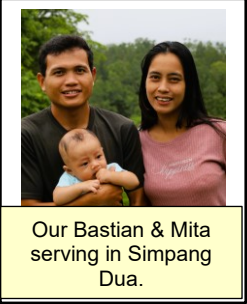

Our Mochtar & Ijah serving in Sependuk Hantu & Tusuk Belawan.

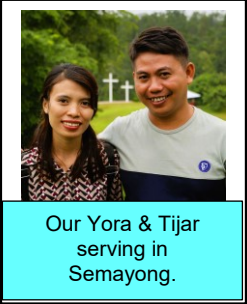

Our Abraham & Lydia serving in Tumbang Kubang.

Our Ima & Yakob serving in Koli.

Our Bastian & Mita serving in Simpang Dua.

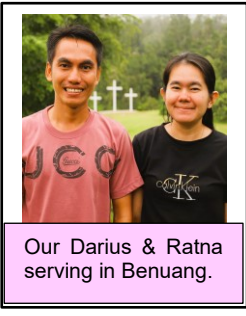

Our Yora & Tijar serving in Semayong.

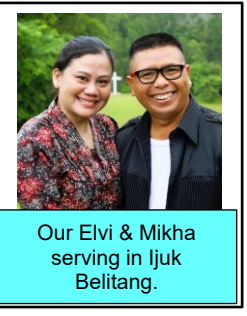

Our Sujiman & Erna serving in Tumbang Gugup.

Our Harapan & Elti serving in Entawak.

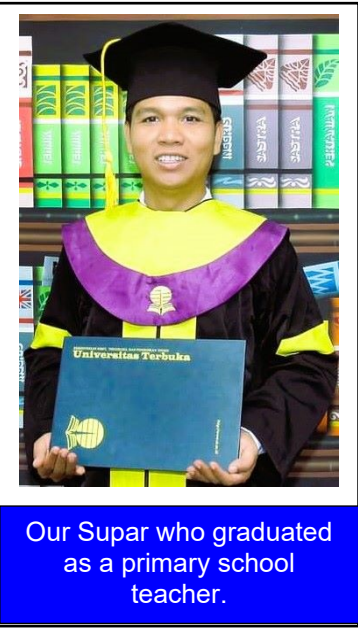

Our Darius & Ratna serving in Benuang.

Our Elvi & Mikha serving in Ijuk Belitang.

Our Sugeng serving in Sabang.

Our Supar who graduated as a primary school teacher.

Our Weni serving in Ngalok.

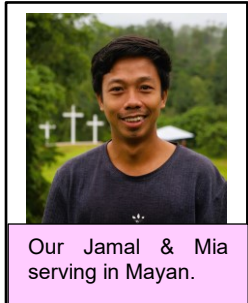

Our Tobik serving in Rosak.

Our Pagun serving in Roja.

Our Melati serving in Kojub.

Our Jamal & Mia serving in Mayan.

When we know we've done something wrong, we want to downplay the error and relieve some of the guilt we feel. As we minimize our sinfulness, we naturally shy away from making changes, and so we keep on sinning. But if we view every wrong attitude and action as a serious offence against God, we will begin to understand what living for God is all about. Is there any sin in your life that you've written off as too small to worry about? God says that we must confess and turn away from every sin.

Our Anton & Kris serving in Idas.

Let's give Jesus thanks together

- For our Pilatus who has completely recovered from a mysterious health issue.
- For our Yanto who underwent chemo and radiology treatment for his cancer. He is fully recovered and back to serving the Lord. Thank you everyone for your prayers for him.
- For our Erna who had surgery removing some nasty lumps.
- For our Kardi who had what seemed to be serious kidney issues. He is stable now and doing well.
- For all our students that have graduated from pre-school, primary-school, high-school and Bible College. All have done an incredible job thanks to our dedicated teachers and you, their sponsors.
- For our large new truck.
- For another 1.5 hectares of land purchased.
- In April I was fortunate to visit Australia for 5 days to see my darling Kay, our children and grandchildren and lots of friends. It was wonderful to catch up with everyone. Lots of coffees and meals were had together during those days. The 5 days zoomed by very quickly and before we knew it, it was time to go again. I hope to go back to Australia for a few weeks in November some time, to see everyone again but not sure when yet.
- For our first house fitted with solar panels.
- For all our babies born in our village and our adopted baby Rhea.
- For all the marriages that took place.
- For a fruitful ministry trip to Singapore, Belgium and the United Kingdom.

All of us here in our village thank you all immensely for your huge input in the lives of all our children and youth. You are a blessing. Thank you again. May our Lord Jesus Christ continue to bless you abundantly in all you do for Him.

Please pray with us:

- For all our mums who are pregnant. Our Nofi, Rosi, Wiwit & Senoy. That they will all enjoy their pregnancy and experience an uncomplicated birth.
- For all our children, youth, adults, visitors, workers, that they will find Jesus here if they haven't done so yet, and enjoy an incredible relationship with Him.
- For a blessed and anointed ministry trip to Singapore from 10 – 27 Aug, Holland 31 Aug – 7 Oct, Australia somewhere in November.
- For continued protection for all our missionaries and families as well as continued favor with government authorities in order to obtain visas and permits.
- For all the new children that have arrived and will be arriving, that they will adjust well to their new home and environment here in our village. For many of them our village is the total opposite of what they are used to.
- For 20 of our Bible College students that have just left our village to go into the interior for 6 months and put their theology into practice before they start their thesis. Please pray they will be sensitive to the Holy Spirit's leading.
- For my eyes (Ronny). Recently I was diagnosed with glaucoma and cataracts in both eyes. Pressure in both eyes had to be released urgently by creating a pin hole through laser treatment. This all happened quite unexpectedly but the Lord amazingly used a wonderful Singapore couple to make it all happen. Cataract surgery will need to be done sometime soon. We are believing for a miracle though.
- For more pockets of land to be purchased so that no future border challenges will be experienced.
- For a number of our year 12 students who have decided to leave Living Waters Village and start looking for work out into the world. We pray that they will continue to be a bright light wherever God takes them.

May the Grace of the Lord Jesus Christ, the love of God, and the fellowship of the Holy Spirit be with you all. 2 Cor 13:14
