No 3, Year 27

December 2021

Shouts of joy to you all from our huge family here in the jungles of Borneo. We trust you are healthy and safe where-ever you are at this moment. Unfortunately our scheduled September newsletter didn't happen due to just being too busy, hence an early December newsletter will have to suffice. Many of us thought that 2020 was a year when the world went crazy due to the Corona pandemic, and that it couldn't possibly get any crazier than that, but how wrong we were.

This year saw a world go hyper crazy and afraid, as freedoms were suddenly stripped away and new scary, unprecedented rules and regulations were implemented, and often changed at a drop of a

hat. What bothers me most, and must have grieved the Lord, is that people started to forget how to care for one another. People were so afraid of catching the virus themselves (and sometimes understandably because they may have lost a loved one to the virus) that they forgot Jesus' commandment to "love your neighbor as you love yourself". But scripture tells me that Jesus always reached out to those in need, those that were considered by society as "unclean", "contaminated" or unwanted. He never shied away from anyone in need regardless of their situation. How is it then that so many Christians today,

during this Corona crisis, are so fearful, and because of that, have become unconcerned for their "neighbor" or are upset or even angry with those that do help those who are in great need, or are angry with those who think and act differently than they do (e.g. vaccinated people or unvaccinated). We see long-term friendships now breaking up, even churches splitting because of differences of opinion and disagreements on how we should handle this crisis. Like I said before, it must grieve our Lord to see such disunity amongst Christians, fear and lack of love for one another. If we think that this crisis is already terrible and we react in such a manner, what are we going to be like when even worse things happen as the book of Revelations says it will?

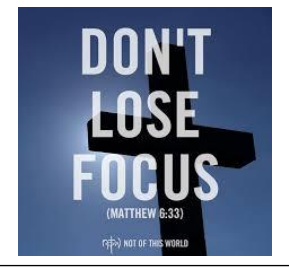

Our Patan

It is good that we don't know exactly when Christ will return. If we knew the precise date, we might be tempted to be lazy in our work for Christ. Worse yet, we might plan to keep sinning and then turn to God right at the end. Heaven is not our only goal; we have work to do here. And we must keep on doing it until death or until we see the unmistakable return of our Savior.

With false teaching and loose morals comes a particularly destructive disease – the loss of true love for God and others. Sin cools our love for God and others by turning our focus on ourselves. We cannot truly love if we think only of ourselves.

“So don’t worry about these things, saying, ‘What will we eat? What will we drink? What will we wear? These things dominate the thoughts of unbelievers, but your heavenly Father already knows all your needs. Seek the Kingdom of God above all else, and live righteously, and He will give you everything you need. Mat 6:31-33

For almost an entire year, from the start of the Corona virus, when it ravaged throughout the world, our village was spared from infections even though around us in our region casualties started to mount up. Although we’ve put restrictions in place to minimize any transmission of the virus, we didn’t go overboard. We didn’t allow fear to be our focus but we kept our trust in God and continued to help those in need in our region as Jesus would have done. Our schools mostly remained open during the entire government lock downs while all other schools in the country were closed. What a blessing that was.

Some of our students at our school. Living Waters Village school.

Finally the government made it mandatory for teachers to be vaccinated otherwise they were not allowed to teach anymore, so all our teachers were vaccinated. A few days later some of them started to get sick. It was at that time we believe that the virus entered our village.

Our Yolanda, a kidney patient who has peritoneal dialysis 4-5 times a day, started to get sick. She developed a fever, couldn’t keep food down (which is essential for a kidney patient), couldn’t sleep anymore and started to show some strange behavior as if she wasn’t registering things anymore. Eventually she fell into a coma. Toher (her husband) took her to the hospital where she was placed in isolation. Toher was the only person who was allowed to visit her only because none of the nursing staff knew how to perform the peritoneal dialysis. Her condition deteriorated as the days went by and eventually the doctor in charge advised Toher to go and get Yolanda’s clothes for her funeral as she wasn’t going to make it. As Toher went home, he informed his two children, our Marchell and Michelle of the oncoming predicament. Marchell immediately rebuked

Yolanda just before going into a coma.

the news and scolded his father for his lack of faith. At that very moment a prophetic word from the Lord was given in Singapore through someone, that Yolanda will be healed through the faith of her son. It didn’t take long before Yolanda miraculously awakened out of her coma and started to recover rapidly. She started to eat and drink again, sleep well again and became alert and sharp again. The

Our Yolanda completely recovered from Covid and back into serving the Lord amongst our children.

doctors were baffled at this sudden turn-around, especially as most of the people on Yolanda’s ward who were either kidney or heart patients had all died of the virus. Yolanda was the only one who recovered and was allowed to go home after her Corona test was negative. She reminded the doctors there, who were from another religion, that it was her Jesus who performed this miracle. The amazing thing is that some doctors ring her up when they have a kidney patient who wants to commit suicide (apparently that is quite common amongst kidney patients here) and ask Yolanda to please share her testimony with them to give them hope and encouragement. God obviously still has a lot of work to do for her here. Thank you to many of you who have been praying for her. Your prayers have been answered. We are all still praying for her to receive new kidneys.

Yolanda & Toher’s two children, our Michelle and Marchell

Christ’s second coming will be swift and sudden. There will be no opportunity for last-minute repentance or bargaining. The choice we have already made will determine our eternal destiny.

While Yolanda was going through this whole ordeal, many of our children, youth and adults started to become ill with Corona symptoms as well. It spread like wild-fire and before we knew it well over one hundred were sick with the virus. We never got anyone tested as that would be futile and a waste of a lot of money since we knew from the symptoms what it was. Each patient rested in their home on the property and were looked after by everyone. No-one was put in isolation, we just let the virus follow its course while we all got on with

living. Some patients took two days to recover, some 4 days and some 2 weeks but everyone recovered, praise the Lord. Thank you once again for everyone who has been praying for all of our sick. You are a blessing.

Reaching out to the needy:

Although the Corona virus has stopped a lot of caring for the poor in the nation, we

have continued to reach out to as many people as possible in the region, providing some with food supplies, others with medical treatment while others with funds to be able to pay for hospital bills, transportation or equipment. The need is immense and everywhere. Our teams go out each week to

Good traditions shine a spotlight on God's Word, move us to obedient service, and help our hearts sing. They explain and reinforce the teachings of God. God's Word should always be the focus, and tradition a means of bringing that Word alive. Celebrate your traditions with the prayer that Christ would be exalted. Change your traditions if they become more important than God's Word.

pray for people in need and see how else we can help them. It's so frustrating sometimes that we can't do more but there are only 24 hours in a day and the running of our village and our church planting ministry gobbles up most of our time and funds. Please pray with us for much wisdom how to divide our time with so much to do everywhere.

Helping Ibu Eluh with funds for some urgent medical treatment.

Helping a mum with her disabled child with prayer and finances.

Helping a lovely brother/pastor who is in his final stages of cancer.

Providing a wheelchair for Dermawan so that he can get around.

Helping little Dean with treatment for his burns.

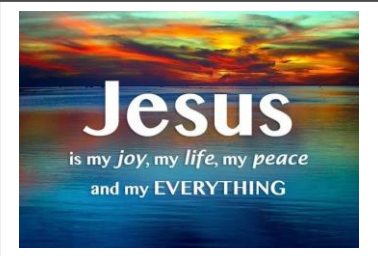

Our Seki (left photo) when he arrived in our village. He is 13 years old but looks like 8 or 9 due to mal-nourishment. He has advanced tuberculosis which he now receives treatment for. It is difficult to understand why his village waited so long before doing something about his condition but this is what often happens when people don't value life as much. He is very fragile and weak (right photo) but recovering. We are grateful to the Lord for bringing him here.

For people who are desperately hungry, there is no better way for us to show God's love to them than to help to provide for their physical needs. As we work to bring wholeness to people's lives, we must never ignore the fact that all of us have both physical and spiritual needs. It is impossible to minister effectively to the spiritual need without considering the physical need.

We work hard to keep our outward appearance attractive, but what is deep down in our heart (where others can't see) is more important to God. What are you like inside? When people become Christians, God makes them different on the inside. He will continue the process of change inside them if they only ask. God wants us to have healthy thoughts and motives, not just healthy bodies.

LWV Family News:

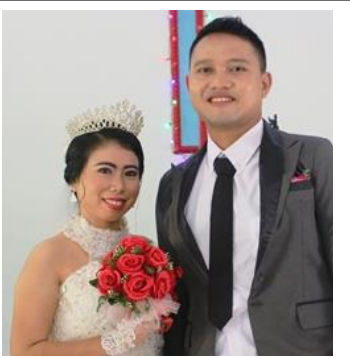

There has been a lot of growing and stretching in our huge family during the last many months. Many new children have arrived in our village from remote regions where families and communities were plunged into extreme poverty due to the sudden closure of rubber and palm oil plantations as a result of the pandemic. For many of these families it was already a challenge to survive before the pandemic and now even more so. Often during extremely difficult times, children are abandoned and we are grateful that at least someone cared enough to bring them to our village. Our hearts go out though to those children that didn't have someone to bring them here to our village. Our prayer is always that the Lord will help us find them or that He will have someone bring them to us. Every child is created in the image of God and He has a wonderful plan and purpose for them all, obviously not to be abandoned, sold, abused, but to make something beautiful of their lives. Someone, therefore has to give them that opportunity and we are ever so grateful to the Lord that He has created such a village as ours, in the middle of nowhere in this jungle, where children and youth can have the opportunity to be brought up in a safe place, by loving people, be educated and become whatever they want to become and at the same time learn to walk with Jesus every day. A huge thank you to all of you who sponsor one or more of our children/youth giving them that opportunity in life.

A number of new children that have arrived in the last few months. Some, who have loving families are homesick as you can imagine, while others who come from difficult backgrounds, are super happy to be here and certainly show it.

We have had a few wonderful weddings again. Our Yosef & Elisabet (right Photo) were married on June 20th here in our village. It was a fabulous wedding and both looked fantastic. They both were eleven years old when they arrived here in our village and fell in love with each other when they were still teenagers. It's so wonderful to see them together now as one and serving the Lord with all their heart. Yosef has studied law and is helping us now with all the legal papers and documents required when land is purchased. A lot of mediating goes on between many parties making sure the land will be secure. Yosef has also learnt to be a mechanic here and helps out at times in our workshop. Elisabet is a secondary school teacher and does a great job with that. She takes her calling as a teacher very seriously, which is great.

Our Hesi and Musa (left photo) were married on July 4th in Hesi's village. Only a few of our people could go to her village to celebrate with them. They had a wonderful time as well. She was 15 when she arrived in our village. She met Musa while she was doing her tertiary studies in Java. They are a great couple and are a wonderful example to our young people. Hesi is a teacher at our high school and Musa does a fantastic job repairing our washing machines, fridges and other machinery as well as being a driver when needed.

Always be full of joy in the Lord. I say it again – rejoice! Let everyone see that you are considerate in all you do. Remember, the Lord is coming soon. Phil 4:4

Don't store up treasures here on earth, where moths eat them and rust destroys them, and where thieves break in and steal. Store your treasures in heaven, where moths and rust cannot destroy, and thieves do not break in and steal. Wherever your treasure is, there the desires of your heart will also be. Mat 6:19-21

Our beautiful Brielle

The Lord has blessed us again with a few more babies whom were added to our large family here. Our Sumanti gave birth to a healthy beautiful girl whom Sumanti and Libanon named Brielle Juanita Rampan. She was born on 15th July. Her sister Amira was over the moon. Both mum and baby are doing great.
 On the 16th July our Mardiati gave birth to a healthy beautiful girl whom Mardiati and Herkulanus named Sheena Lieke Jagaj. Her brother Leoneil was, needless to say also over the moon. Mum and baby are also doing wonderfully.

Our beautiful Sheena

Our Fitri, Imelda & Tini enjoying LWV 18th birthday.

Floods Galore:

Borneo has experienced one of its wettest years for a long time, causing major flooding to many regions, mainly in the lower regions but also in many higher regions where major and minor rivers join together. It's in those places where towns and villages are usually built, and unfortunately also receive the brunt of any flooding causing people to have to evacuate to higher ground. We have had 4 major floods already this year, causing tens of thousands of families to evacuate. Many of them have lost everything and had to start all over again. Please pray for those people that they will be able to get back on their feet again and that in all their struggles they will find the Lord. Thankfully Living Waters Village has been spared from any

flooding due to us being on high ground. We are so grateful to the Lord that He chose this land for us so many years ago.

Nanga Pinoh, where we always go to the market, under water yet again.

Our road to our dam cut off due to quite a long landslide.

True wisdom can be measured by a person's character. Just as we can identify a tree by the type of fruit it produces, we can evaluate our wisdom by the way we act. Foolishness leads to disorder, but wisdom leads to peace and goodness. Are we tempted to escalate the conflict, pass on the gossip, or fan the fire of discord? Careful, winsome speech and wise, loving words are the seeds of peace. God loves peacemakers.

An aerial view of a section of our property with all the various projects going on. God is so amazing. All honour to Him.

BELIEVE
in the

SAVED

JOY
to the
World

Building Progress:

An enormous amount of work has yet again been accomplished over the past few months which is extraordinary, considering that so many materials are hard to come by with stocks in almost every building sector depleted or just not available for whatever reason. And yet God has somehow again made it possible for us to receive building materials just at the right time and often in the most amazing ways. While others haven't been able to get materials our ordered supplies mostly kept on coming, albeit sometimes just at the last minute. Only a few times have we had to wait for some materials which wasn't a drama because we have so many projects going at the same time.

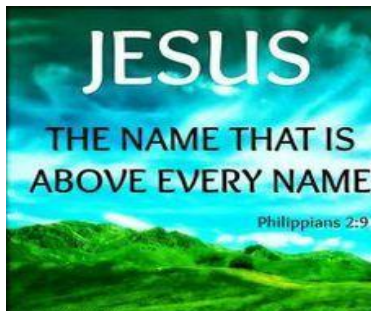

New roof going up in the centre area of the training centre plus family quarters.

We began replacing the family quarters roof as well as the Training Centre outside undercover area, which is now one very large roof structure. It is a massive job requiring a lot of skills but our roof expert missionary, Daniel from Belgium, and his local team of our boys have done a fantastic job getting the trusses and roof covering up. Others have placed the ceilings and put all electrical cables in place. Scaffolding is starting to be dismantled and all of us just marvel at the structure which will no doubt last for many generations or until Jesus returns ☺. There is still quite a bit of ground work to be finalised around these two buildings which will take a few months to complete.

Yunus house (photo left) which used to be a 2 bedroom house, is being turned into an eight bedroom children's home. All the concreting has been done in the building and now scaffolding is being erected so that the roof trusses can be made. Once the house is finished it will house 15 children plus houseparents and their family. It doesn't look like much at the moment but it will be a fabulous and a blessed home once it is finished.

THE **HOLY** SPIRIT

Months of planning go into a wedding, the birth of a baby, a career change, a speaking engagement, the purchase of a home. Do you place the same importance on preparing for Christ's return, the most important event in your life? Its results will last for eternity. You dare not postpone your preparations because you do not know when His return will occur. The way to prepare is to study God's Word and live by its instructions each day. Only then will you be ready.

Ezra house and Nehemiah house (left photo) which are two houses under one roof, are almost finished with only a few touch-ups to be done and then they will be ready for children and houseparents to move into. These two houses are right next door to the high school which will help the school with a bit of security during the evenings and in holidays.

David house and Jonathan house (right photo) are being tiled at the moment and it won't be too long before these two houses will be ready for more children and youth to move into. These two houses are also next door to the high school on the opposite side from Ezra & Nehemiah house.

The primary school renovations are a very slow process due to the urgency in completing accommodation buildings so that they are ready to house all these new children who have arrived. Slowly things are being completed, but it will be quite some time before the buildings are ready for use again.

Abraham house in Nanga-Pinoh (photo left) is coming along as well. It is a huge project for us requiring a lot of patience and hard work. It will be great once it is completed and we can help many families who come down from remote villages located upstream from the waterfalls. Many of these tribal people need a place to stay when they bring their sick loved ones to the local hospital here for treatment. It will be a great way to minister and share the Gospel message to them.

Please pray with us for the right houseparents to

oversee and run this important ministry. The photo doesn't give you much of an impression of how much work has already gone into this place. Here you can see that we are building a massive open drain which will be built all around the property to get rid of the huge volumes of water that normally engulf the property after tropical downpours. Why the drain first and not finish the house first? The house needs an underground water tank for house usage. The town doesn't have adequate town water hence people have to find their own water supply hence the need of a huge water tank, but before we can build that we need to level the land and before levelling the land we need to build the drains.

Titus house (photo right) is finally finished and what an incredible home it turned out to be. Danang & Tuti are house parents together with their three children. They have another 25 children/youth living with them as well as the mother of one of our children, who had a stroke last year and can't look after herself. We decided to bring her to our village so we can care for her as well. She just recently moved to Titus house. There is a wonderful homely, loving atmosphere in this home as well, which is mainly due to the way Danang and Tuti treat everyone and teach them how to love the Lord and how to respect and love each other.

If you sometimes doubt your salvation, the forgiveness of your sins, or God's work in your life, look at the evidence in Scripture and the changes in your life. When you doubt, don't turn away from Christ; turn to Him.

Our Riki & Novi, together with their three children are house parents now of Yefta house. They have another eight children/youth to look after and do a great job of it. Their home is also homely and loving. When God is central in our lives then His Presence is tangible making any place a great place. We are greatly blessed and very proud of all our house parents who all do an awesome job.

We have managed to build a few more kilometers of roads through our jungle in the area we haven't really surveyed before. We are trying to link certain roads with each other

so that access to key areas will be made easier. Of course this is easier said than done. Some hills are so steep and some valleys are so muddy that it is hard to make a road in those places without having to spend a fortune first. The reason we make these roads is so that tribal people don't come and pitch their tents on our property without us knowing about it. Once they have pitched their tents and made a vegetable garden or rice paddy they can, by law, eventually lay claim to a piece of land even though we bought it. Land claims can be very dicey here. We have learnt over the years what strange traditions and unfair laws to look out for and avoid.

We have also concreted another section of road next to Benjamin's house, which takes us to a T-intersection. (See below) This is a very steep hill and a huge job. On one side of this road we managed to cut out a large enough area to put another childrens home. We have already finished building the retaining walls and the septic tank for this house.

Christ can make a difference when it seems too late for anyone else to help. He can bring healing to broken relationships, release from addicting habits, and forgiveness and healing to emotional scars. If your situation looks hopeless, remember that Christ can do the impossible.

Broken relationships can hinder our relationship with God. If we have a problem or grievance with a friend, we should resolve the problem as soon as possible. We are hypocrites if we claim to love God while we hate others. Our attitudes toward others reflect our relationship with God.

Our Jesen.

Are any of you suffering hardships? You should pray. Are any of you happy? You should sing praises. Are any of you sick? You should call for the elders of the church to come and pray over you, anointing you with oil in the name of the Lord. Such a prayer offered in faith will heal the sick, and the Lord will make you well. And if you have committed any sins, you will be forgiven. James 5:13-15

Proud to be a Dayak. Dressed up in their traditional gear. Keeping the good things of their culture alive.

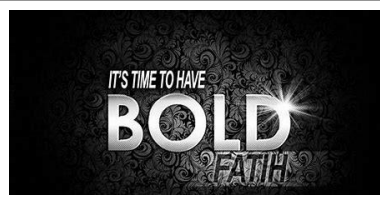

Our yearly Dayak day combined with LWV 18th birthday.

This year we combined our yearly Dayak day with Living Waters Villages 18th birthday. It was a wonderful weekend with lots of activities for everyone. On Saturday 31 July we celebrated mainly our Dayak Day. Lots of games were organized for the children and youth during the day while many others were cooking traditional food the traditional tribal way. In the evening we all had a meal together thanking the Lord for yet another year of breakthrough and growth for the Dayak people. To cook and serve for 800 plus people is no small operation. Many weeks and months of preparations go into organizing something like this but it always amazes me how well we pull this off each year. Of course lots of prayer and everyone willing to pitch in makes all the difference.

Our Sabdi playing the Sape.

Our Miracle and Rivila enjoying Dayak day.

The next day, Sunday 1st August we predominantly celebrated LWV birthday. Combined with the church services in the morning and the evening it was awesome. Lots of creative skits, dramas and dances were performed by various age groups and all did a fabulous job. In the evening we again all had a meal together thanking the Lord for another year of blessings and personal growth. It was a very hectic two days and I think that everyone was glad to

climb in their beds at night. Looking back we can only glorify God and thank Him immensely for the way He keeps nurturing this place in the middle of the jungle. Without Him it would not be possible. Without you it would be so much harder. Thank you to you all who are involved in any way in this place here. You too are making a wonderful difference in many lives.

Enjoying LWV birthday meal.

For donations and/or sponsorships please have a look on our websites www.livingwatersvillage.com under "donations" and click on your country for details.

Our book "Miracle Zone in the jungles of Borneo" is available now in many countries. Please visit our website to find out how you can order and purchase via the internet. Makes a great gift for anyone

Graduations:

Two of our students have recently graduated from University. Our Eko in accountancy and our Siana in office-management. We are all super proud of them for their great achievements.

Right living is the evidence of faith. The church must serve with compassion, speak lovingly and truthfully, live in obedience to God's commands, and love one another. The body of believers ought to be an example of heaven on earth, drawing people to Christ through love for God and each other. If we truly believe God's Word, we will live it day by day. God's Word is not merely something we read or think about, but something we do. Belief, faith, and trust must have hands and feet – ours!

Our Mersi, Kor, Supar & Riski in their Dayak gear.

Our Dika, Selli & Indra.

Living Waters Village Orchards:

Our village has quite a few wonderful fruit orchards now producing some fantastic crops of various types of bananas, pineapples, papayas, wild mangos, rambutans (a bit like a lychee), jackfruit and we even have a few smelly durian trees. We have also hundreds of mangosteen (mangis) trees but they still haven't produced any fruit as yet. Usually takes 7- 10 years before they produce anything. Each childrens home have their own vegetable garden and orchard which they look after. Some are bigger than others, depending on how many children and youth live in a house but all do a marvellous job and enjoy eating the spoils. It's a great way of teaching them important life skills. A lot of children already have quite a bit of knowledge in gardening but their tribal traditional way, which is not always very productive, but it's a good start.

Have you recently moved and **NOT** let us know your new address and/or email address yet? Please email us on ronnyheyboer@gmail.com to let us know your new address. Thank you in advance.

Awesome bunches of bananas.

A huge crop of delicious rambutans.

If you follow my decrees and are careful to obey my commands, I will send you the seasonal rains. The land will then yield its crops, and the trees of the field will produce their fruit. Lev 26: 3-4.

The best sweet pineapples.

Wonderful crops of papaya.

Some believers assume that numerous material possessions are a sign of God's spiritual blessing. What they can see and buy has become more valuable to them than what is unseen and eternal. Wealth, luxury, and ease can make people feel confident, satisfied, and complacent. But no matter how much you possess or how much money you make, you have nothing if you don't have a vital relationship with Christ. How does your current level of wealth affect your spiritual desire? Instead of centering your life primarily on comfort and luxury, find your true riches in Christ.

Meet our Workshop team:

Our village has a large workshop where a lot of maintenance gets done. Each year it gets bigger as the village grows and as a result more equipment and machinery are required. Our workshop team has a number of sub teams who repair and service motorbikes, cars, trucks, generators, pumps and all sorts of machinery. Our workshop guys are all still quite young but they do an incredible job keeping things in good working condition. Some of them have had some wonderful training over the years by some missionaries. Some people think that missions work is preaching, worshipping or teaching Gods Word but missions is much more than that. It's using any skill or talent you have been entrusted to by the Lord, to serve Him, to

Our guys fitting a new chassis on an old truck.

Our workshop team with our Samuel (far left) as manager.

enlarge His Kingdom, helping the lost find Jesus. And you can do this by helping to build something, repair something, teach or just help at schools, nurse the sick, help with administrative work and the list is endless. Over the years many missionaries have come and gone here and all have made extremely valuable contributions to the people here by passing on their talents to our young people which they use now to carry on the Lord's work, contributing to reaching the lost. How awesome is that!

Living Waters Village Bible College:

On the 11th August finally our Bible College was officially opened, although perhaps not quite officially because we still haven't got all the required documents and Government approvals to register it properly, but that often takes years here. Schools and Bible Colleges usually just start and eventually the official Government registration arrives years later. We were blessed to be able to start with 20 students. Fourteen of them were from our village here and the rest from around the region. Our main aim is to raise-up and equip many pastors and church planters, preparing them to serve the Lord and live in remote regions where there is little or no Christian witness at all. There are still so many tribes and villages in Borneo to be reached with the Gospel message of unconditional love and forgiveness of sin and guilt.

Our first year intake of eager, excited, ready-to-go Bible College students. What a blessing they are.

To have our own Bible College means that we no longer need to send our students to various Bible Colleges in the country, saving us a lot of money which we can instead invest in church planting in the remote regions in these vast wild jungles. Our focus is, and always has been and always will be, to reach the lost, to help people find and receive Christ Jesus. Our main focus is not to build buildings, schools, start feeding programs etc, even though they are extremely important. Of course we do build them and start various programs to help the poor because you cannot point a starving child the way to Jesus without feeding them. You cannot point an abandoned, abused youth the way to Christ without providing a loving and safe place for them to live in. The two go hand in hand. Hence, we continue to build Living Waters Village, to help the many needy children and youth. At the same time we are constantly reaching out in the interior of Borneo to as many souls as possible, showing them the way to Christ Jesus. What a privilege and joy to be part of that.

Frequently asked question:
How do I leave something to LWV in my Will?
 It is best to contact your legal advisor, solicitor or the Public Trust Office or its equivalent in your own country, on how to do this.
Our ministry name:
Rivers of Life Ministries Borneo.
and/or Living Waters Village Borneo
(Yayasan Sungai Kehidupan Borneo)

On behalf of Living Waters Village
We wish you a blessed Christmas and 2022

We love Him, because He first loved us. 1 John 4:19

Let's give Jesus thanks together:

- For the safe arrival of two more grandchildren here ☺.
- For two more couples who tied the knot.
- For the blessed and successful recent ministry trip to Holland.
- For the arrival of funds to purchase school tables, chairs and mattresses which is such a blessing.
- For the many souls who said yes to Jesus here in our village and in our church plants in the interior.
- For all the new children that have arrived again in the past few months.
- For Yolanda's miraculous healing.
- For the Lord's incredible protection and awesome provision.

All of us here in our village thank you all immensely for your huge input in the lives of all our children and youth. You are a blessing. Thank you again. May our Lord Jesus Christ continue to bless you abundantly. Ronny (in Borneo), (Kay in Australia) and all our children, youth and team at LWV.

Please pray with us:

Happy Birthday JESUS

- For our little Amel who desperately needed a molar extracted. Because she is a HIV patient, dentists and hospitals were reluctant to help her. Finally after a number of days in Pontianak (the capital of West-Kalimantan) going from one hospital to another, and one dental practice to another, finally our Ana & Bobby found a private dentist who took up the challenge and got the job done. Our Amel is a very brave little girl who doesn't seem to be afraid of much at all. Please pray for the Lord to heal her from this dreaded HIV.
- We urgently need a dentist to come and do some work on many of our children's teeth, particularly all the new children that have arrived within this last year. Covid has prevented dentists getting here. Rotten teeth have a detrimental effect on the health of many parts of the body, and stunts children's growth.
- Please pray for my (Ronny) upcoming ministry trip to Belgium from 21st January 2022 until 14th February, followed by Singapore from 15th February to 7th March and then California USA from 8th March until 21st March.

Bookings for speaking engagements in those countries can be made via the following people:

For Belgium – Guido Mille guido.mille@gmail.com

For Singapore – Myself (Ronny) ronnyheyboer@gmail.com or WA +60168975464

For California USA – Pastor Tony Lolong tonylolong@msn.com

- Please pray with us for all our pregnant mums; Our Yulmika, Elisabet and Cerina.
- For sponsorship for our Bible College students.
- For the arrival of 6 more truckloads of building materials from afar, which we desperately need to finish a number of projects.
- For the remaining pieces of land we believe the Lord wants us to have. There are still quite a few plots that need to be purchased. Owners are reluctant to sell or are seeking exorbitant, ridiculous prices.
- For funds to arrive for the foundations for the High School auditorium. Est: US\$20,292.-
- Funds for the foundations of 13 new Children's homes. Est: US\$10,496.- each.
- Funds to seal another two km of our roads. Est US\$22.392.-
- For funds to come in for 1 more new 100 KVA generators from the UK. Est: US\$33,605.-
- Funds to arrive for another pick-up truck to carry goods. US\$31,791.-
- For our future airfield with all the required facilities, which is on hold for now due to the urgent need to keep building more accommodation for new children arriving.

Oh, that we may know the Lord! Let us press on to know Him. He will respond to us as surely as the arrival of dawn or the coming of rains in early spring. Hosea 6:3
