No 2, Year 27

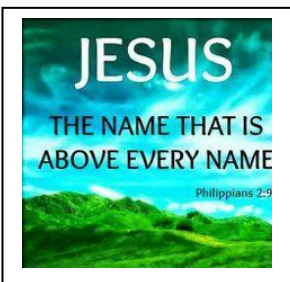

June 2021

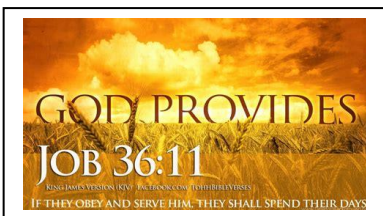

The sign says it all, "A Miracle Zone".

Warm greetings to you all around the globe, from our entire tribe here in Living Waters Village in the heart of Borneo. We trust you are healthy and safe where you are and still enjoying the many blessings from the Lord each new day, even though some of you may be going through a very difficult time. Rest assured that God is with you as you put your trust in Him. He will carry you through it all. A number of you have requested prayer from us which we have done diligently, and still do in many cases, and it is wonderful to hear how the Lord has answered many of our prayers. God is good and faithful.

While it seems that some parts of the world are sort of managing the Covid virus usually through stringent lock downs and aggressive vaccinations programs (yet not always), other parts of the world less aggressive with its handling and management, are overwhelmed with fresh outbreaks and new strains, which is causing an enormous crisis in various communities causing untold suffering through loss of life and decimating their economies. For them there just doesn't seem to be an end in sight.

I think the world is going through Covid fatigue now in a big way as various peoples are becoming more and more restless, frustrated, angered at new policies, angered at the unknown, disruptions, border closures, just to name a few, which is causing a lot of anxiety, anger and stress amongst many people. Of course there is no immediate resolve and people are just going to have to live with it for a while longer. Here in our village we have been and still are, Covid free, which is a real miracle as the virus

has been slowly creeping up into our region in the year gone by and is now rapidly spreading in our surrounding areas. The government even recently closed our only road in the region to try and stop the spread of the virus. Only food supplies and goods are allowed to use the road with covid tests carried out for the truck drivers at various check points. Our village is in semi-lock down now again with a number of restrictions in place such as limiting people coming in and going out

from our village as well as temperature checks, washing hands etc. We want to make sure that this virus doesn't make its way into our village as that would be detrimental particularly to those who are sick here.

**Many nations place their confidence in their military strength, strong defenses, and economic stability. But because of their people's inner moral decay, their apparent source of strength becomes inadequate. There is a tendency in many nations toward removing all traces of God from daily life. But if a nation forgets its Maker, its strengths may prove worthless when put to the test.**

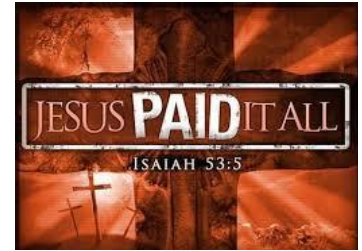

Our Katrin & Nomi

**I said, 'Plant the good seeds of righteousness, and you will harvest a crop of love. Plow up the hard ground of your hearts, for NOW is the time to seek the Lord, that He may come and shower righteousness upon you'. Hosea 10:12**

Thank you all so much for your faithful prayers which God is obviously answering. Despite the terrible inconvenience of this virus, the Lord has made it possible, over and over again, in delivering truckloads of food supplies, fuel and building materials so that everything here can go on as normal. How amazing is that in these unprecedented times? Thank you Jesus and thank you everyone else for your love and wonderful input in the lives of our children and youth here in our village.

**God puts no limit on the number of times we can come to Him to obtain mercy, but we must come in order to obtain it, recognizing our need and asking Him for help. This miracle of grace should inspire us to say, "What a gracious and merciful God you are!" If there is a recurring problem or difficulty in your life, continue to ask God for help, and be willing and ready to make changes in your attitude and behavior that will correct that situation.**

Our Okto arrived in our village on the 5<sup>th</sup> June last year, 2020. He was a very messed up little boy when he arrived. While his mother was pregnant with Okto his parents divorced. His mother became mentally unstable which resulted in him staying with his grandmother. He became very ill which was noticeable to others in the village. A relative decided to bring him to a small town, which is not too far from Living Waters Village, in the hope that he would get treatment but he ended up staying with people who thought perhaps they were doing the right thing but messed him up quite a bit. Via someone he ended up here with us, hoping to get some treatment. There is a lot more to this story but it is rather sensitive. We noticed his ailing condition and sought medical treatment. We discovered that he had advanced tuberculosis and had 3 tumors, 2 rather large (one of great concern) and one already protruding through his lung and skin which was also of great concern due to the risk of infection. However through lots of prayers from everyone here in our village and many of you, plus tuberculosis medication he is now completely healed and he looks and feels great. God obviously has a great plan for his life. We are so blessed and honored to have him here with us.

Okto when he arrived.

Thank you all for your prayers and support for our Okto and children like him who were found or brought here. They live here now in a safe environment, are loved and

cared for, receiving a wonderful opportunity to reach their full potential through our education system, and learn to walk with Jesus every day. It is so fantastic to see how happy they are and enjoying their lives now with so many others who come from similar backgrounds. As they grow up here, they too, develop a loving, caring attitude for each other and become very passionate to help their tribal people find happiness in life through finding Christ. They all have experienced living under the control and power of witchdoctors who lord it over the people through demonic activities causing intense fear, anger, violence, hatred, murder, nil respect for women etc, preventing anyone to have a happy life. But praise God, that is changing now as children here are praying for their families and tribes, to be set free from being under the spell of witchdoctors because their families now hear the Word of God preached to them through our people who go and preach the Good News there and as a result the Holy Spirit helps them to open their hearts so that they can believe and receive Christ in their lives. What a privilege to be part of God's plan.

Our Okto now completely healed.

Our Gita

**God knows everything about us, even the sins we try to hide. Instead of worrying about people noticing how we look or what we do, we should care about what God thinks, for He sees everything. Trying to hide our thoughts and actions from God is futile. "Secret" sins are never secret from God. The only effective way to deal with our sins is to confess them and ask God to help us overcome them.**

Our Deru and Julian full of spots.

Many of our children and teenagers recently contracted chickenpox which spread like wildfire amongst them all, particularly amongst the children and teenagers who arrived last year. Some received a mild dose and others a more severe dose. Some only got a few spots and others were covered. The teenagers in general were more covered with spots and had prolonged high fevers. It took about one month for the spread of chickenpox to subdue. We were very grateful that this year's outbreak of chickenpox didn't beat the record of a number of years ago when we had 58 children and youth at the same time with chickenpox. What a challenge that was which kept us on our feet day and night.

**Oh, that we might know the Lord! Let us press on to know Him. He will respond to us as surely as the arrival of dawn or the coming of rains in early spring. Hosea 6:3**

**Conceit or pride in our own accomplishments should be a danger signal to us. God is not against our taking pleasure or finding satisfaction in what we do, He is against arrogance and inflated self-esteem that looks down on others. We must acknowledge God as the basis and source of our life.**

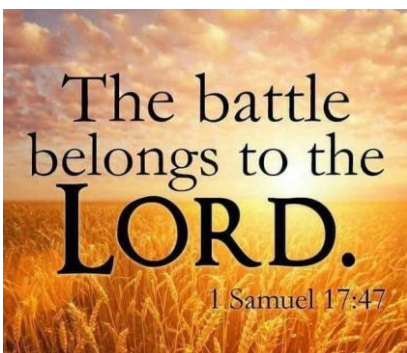

Our Amelia.

Our Amelia is doing great too. She comes from the Mualang tribe and arrived in our village almost 2 years ago now. Her parents had died from HIV and since then she ended up being tossed from one place to another as no one wanted her. She ended up looking after herself most of the time yet she was only 4 years old then. Word got to us here in our village that there was this little girl who was mostly on her own and if we wanted her. Of course we did and organized someone to pick her up and welcomed her here into our big family. After a medical examination we found out that she too has HIV. She is now under treatment and doing very well. She enjoys going to school and living with lots of brothers and sisters. Every 6 months we have to take her to Pontianak to monitor her condition. Please pray with us for the Lord to do a wonderful miracle of healing in her life. We are so grateful that Jesus brought her here as He loves her deeply and wants the very best for her as He so desires for all of us.

Our very brave Amelia.

Our Yolanda is doing well with the peritoneal dialysis which she has to do 4 times a day. She has been doing this now already for a few years and it works out so much better for her as she has more freedom and independence. Before, she had to travel far every few days to go on a dialysis machine which took a severe toll on the rest of her health, particularly her heart.

Our Yolanda & Toher.

Every 6 months now she has to travel to Pontianak (10-12 hour drive one way) to change the catheter in her abdomen. It has been a bit risky to do this considering that the hospitals are full with covid patients but we pray over her and believe that the Lord will take care of her which He has been doing. Thank you to everyone who have been praying for our Yolanda.

4-5 times a day dialysis

She is a wonderful sister in the Lord who is used by the Lord incredibly to bless many people from all faiths with chronic kidney problems.

**Are you remaining true to your promises, both to other people and to God? If not, ask God for forgiveness and help to get back on track. Then be careful about the promises you make. Never make a promise unless you are sure you can keep it.**

**God hates worship by people who go through the motions only for show. If we are living sinful lives and using religious rituals or traditions to make ourselves look good, God will despise our worship and not accept what we offer. He wants sincere hearts, not praise from hypocrites. When you worship at church or anywhere else, are you more concerned about your image or your attitude toward God?**

**Our Azel very focussed praying**

Pak Picin is the father of two of our girls that live here, our Eka and Nopa. Early this year Eka approached us letting us know that her father was deathly sick in their village and there was no one who cared for him as their mother had already passed away a number of years ago. Other

family members did at one stage take him to the nearest hospital but because they had to pay for it and had no money they decided to take him home and let him look after himself. Hence he was rather neglected and forgotten.

**The result of diabetic neglect.**

**4 months later. God is so good.**

Someone from their village let the girls know that their father was dying. He couldn't walk, sit, control his bowels anymore nor eat anymore. We decided to pick him up and take him to a private hospital in Pontianak. Our Ana & Bobby together with Eka transported pak Picin to the hospital but when the emergency department had one look at him said he wasn't welcome there and told them to go away. Unbelievable but that's how it goes here at times.

They took him to another private hospital and there the emergency department were shocked to see this man in such a state. Although he required urgent

attention they fumbled around for many hours but for them it was a way of saying that his case was really a lost cause because any treatment was going to be expensive and they didn't think that our guys had that sort of money. Again unbelievable. Ana had to speak sternly to the hospital staff requesting to have all the tests done necessary which they eventually got around to and discovered that he was a diabetic. Once they had the insulin under control and attended to his other needs he started to improve rapidly but was still in grave danger. Weeks went by in the hospital and after a number of operations, the hospital bills sky-rocketed to incredible amounts. We decided to bring him home to our village and treat him further in our clinic which was really such a blessing in disguise. Due to his previous diabetic neglect a lot of his skin was already dead or dying

which the hospital removed as you can see on the photo. They wanted to do skin grafts but I so believed that the Lord could heal his skin as I have seen Him to do that before with some of our children. Our medical staff here in our village looked after him night and day, put honey and special dressings on his exposed wounds and prayed with him regularly and so did all our people here in our village. After 4 months his back wound has grown new skin as you can see on the photo. He walks again, enjoys a good diet and feels and looks great. What a journey, but we praise and thank God for His intervention in the life of this soul. Our prayer is that pak Picin will come to know His Savior, Jesus Christ, intimately and will share his testimony with many villagers how this wonderful compassionate God rescued him and gave him a new life, physically and spiritually.

**Pak Picin now healed.**

**For the Lord your God is living among you. He is a Mighty Savior. He will take delight in you with gladness. With His love, He will calm all your fears. He will rejoice over you with joyful songs. Zeph 3:17.**

Beneath attractive facades sometimes lie seduction and death. Don't let an institution, company, movement, or person seduce you into lowering your standards or compromising your moral principles.

"I am leaving you with this gift – peace of mind and heart. And the peace I give is a gift the world cannot give. So don't be troubled or afraid. John 14:27

For those who can remember, Lodi's car was a bit of a mess when involved in an accident a few years ago. Although the bodywork was wrecked, the engine seemed to be still ok. It was parked in our workshop for over a year before our young guys from the workshop decided to turn it into a utility car. Although the car can't leave the property now it is well used around our village, carting goods around the place. Hence the car has been resurrected and is such a blessing.

#### Email addresses:

A huge thank you to all those people who sent us their current **email address**. Still there are a number of emails that have come back to us because their **email address** is outdated. Please do email us your correct **email address**.

If you received a printed copy of our newsletter that means we don't have your **email address**. Of course if you don't have an **email address** then we will continue to send you a printed copy but if you do have an **email address** can you please email it to us to [ronnyheyboer@gmail.com](mailto:ronnyheyboer@gmail.com) That will help keep our costs down tremendously. Thank you all for your understanding.

Some of our 3<sup>rd</sup> year junior high school students doing their final exams. Education is not taken for granted here. Still 40% of children and youth in Kalimantan cannot go to school because either there is no school building in their village, no teacher or no finances even though school is supposed to be free. Our school remains open during Covid while all other schools stay closed.

Joshua.

Introducing a great guy named Joshua, a Papua New Guinean, who has lived the last 11 years in Australia and has been called by the Lord to come and serve Him here with us. It's quite a miracle really that he was able to obtain a long term visa and get here during all these lock downs everywhere. But God made a way. We are thrilled to have him here with us and know that the Lord will use his talents in music, worship and many other things to help the Lord's work here in our village.

Great wealth and comfortable lifestyles may make people think they are secure, but God is not pleased if we isolate ourselves from others' needs. God wants us to care for others as He cares for us. His Kingdom has no place for selfishness or indifference. We must learn to put the needs of others before our wants. Using our wealth to help others is one way to guard against pride and complacency.

**No matter how impure your life is right now, God offers you a fresh start. You can have your sins washed away, receive a new heart for God, and have His Spirit within you – if you accept God’s promise. Why try to patch up your old life when you can have a new one?**

## Church Planting:

Our Mikha & Elvi together with their two children, Dero & Difta are doing a wonderful job upstream on the Melawi river in a place called Kemangai. They have been serving the Lord there now already 11 years and during that time have seen many people come to Christ. It’s an incredible spiritual dark region with lots of occultism in every direction. Their faith has been tested time and time again with lots of attacks also from every direction. A number of times they too considered to run away, to quit because it was getting unbearable but they knew that God had called them there to be a light in that dark region.

They stand on God’s Word, on His promises and continue to surrender everything

Mikha & Elvi together with Difta & Dero.

to Him. As a result souls from the Uud Danum tribe are receiving Christ in many of the villages they minister to along the Melawi river. Every week there are water baptisms and people are hungry to be taught God’s Word. How awesome!

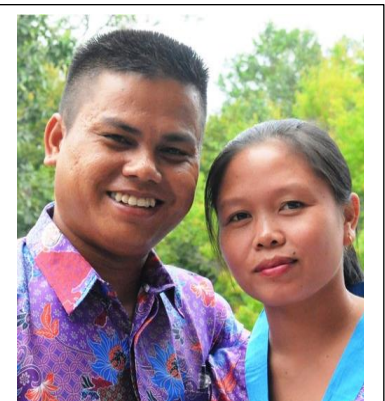

Nenson & Lusiyanti

Our Nenson and Lusiyanti are also ministering upstream on the Embalau river which is a branch off the Melawi river. They are in a very remote region already for many years and also doing a fabulous job.

The spiritual ground there is hard as a rock due to the occult. A lot of witchcraft is done in that region more so than in other areas hence their area is super difficult but not impossible with God. He sent them there and they too have been tested time and time again but are staying put knowing that the Lord is with them. Many people are coming to Christ there too, burning all their witchdoctor paraphernalia as they renounce their allegiance to the occult world. How awesome to see people surrender their lives to Christ and hunger for the things of God.

Our Kristian Arden & Sinurwati are also ministering upstream on the Melawi river but in the remotest region of all the church planters. Although the government has planted an outpost there the region is still very wild and primitive. Kristian Arden is overseeing a number of church plants in that region and as a result seeing a number of Uud Danum tribal people coming to the Lord which is awesome. It is a harsh, hard, wild place where at times the occult seems to have the upper hand, but God is at work there and performing miracles amongst the people, intervening in their occult practices and showing them what forgiveness of sin is and unconditional love, a life of happiness instead of a life of bondage and fear.

Kristian Arden & Sinurwati.

**If you face jealous critics because of your faith, be glad they’re criticizing that part of your life – perhaps they had to focus on your religion as a last resort! Respond by continuing to believe and live as you should. Then remember that God is in control, fighting this battle for you.**

**Just as when a man and woman fall in love, so also new believers rejoice at their newfound forgiveness. But when we lose sight of the seriousness of sin, we begin to lose the thrill of our forgiveness. In the first steps of our Christian life, we may have had enthusiasm without knowledge. Do we now have knowledge without enthusiasm? Both are necessary if we are to keep love for God intense and untarnished. Do you love God with the same fervor as when you were a new Christian?**

Our brother Mochtar and his wife Ijah have recently joined us but have been planting churches already 40 years in central Kalimantan. We came to know them through our fellowship seminars at our village. Brother

**Pak Mochtar & Ibu Ijah.**

Mochtar is already 70 years young and still going strong. Retirement is not in their vocabulary. They are a great blessing to many villages and tribes throughout the central Kalimantan region. Currently they are overseeing a church plant in Sepandu Hantu and Tumbang Gugup. They have a wealth of experience and many testimonies of how God has miraculously used them, rescued them and sent them to various unreached tribes, from which our young people can learn a lot from. They still go from place to place on their motorbike or in their canoe to preach the Gospel to those hungry for the Word of God. What an amazing couple.

**Burning all his witchdoctor paraphernalia**

Please do pray with us for all our church planters who are doing an amazing job against all odds where they are. There is only one road to their places which is the river, a dangerous, and unpredictable flow of water which constantly changes throughout the day as water levels fall and rise quickly at each rainfall either exposing tree trunks and sharp boulders sticking out of the water or combatting floating fallen trees due to raging flood waters. Sometimes they have electricity in their village but often they don't. Some places have a phone signal and many none at all. Many places have malaria, typhoid, hepatitis, tuberculosis, HIV and the likes but little or no medical facilities at all. The nearest hospital is for some a full days travel away and others two to three days costing them one – two months wages one way. Yet despite all these hardships, discomforts

**Receiving Christ & renouncing the occult. Praise God.**

and lack of basic amenities our families still remain faithful serving Him in those isolated parts of the world. Hence our prayers are vital. Thank you to those of you who sponsor one or more of our church planters. Know that your support is seeing souls saved in some of the darkest areas in the jungles of Borneo.

**The church's mission – to send the gospel to all the world – is fraught with overwhelming obstacles. Any one of them appears devastating. Against human stubbornness, disease, danger, terrorism, loneliness, sin, greed, and even church strife and corruption, what can a few missionaries hope to accomplish? Yet we go out with love and gratitude for Jesus and leave the big obstacles to God.**

**Taking the Gospel to remote wild jungle regions.**

# Seek the Lord while you can find Him. Call on Him now while He is near. Isaiah 55:6

Some rich people and nations often claim that their material success is due to their own hard work, initiative, and intelligence. Because they have bought whatever they wanted, they don't feel the need for God. They believe their riches are their own and that they have the right to use them any way they please. If you find yourself feeling proud of your accomplishments, remember that all your opportunities, abilities and resources come from God and that you hold them in sacred trust for Him.

## LWV Family News:

It's been busy the last three months with weddings and engagements. Our Nasius & Meri got married in Meri's village called Manggala which is just up the road from our village. We had a lovely service there and celebration afterwards. They are a lovely couple living now opposite to our training centre. Nasius is a teacher in our High School and Meri is currently learning a bit of everything, so she can be multi skilled in the various areas of ministry here. Eventually she will be teaching at our school.

Our Nasius & Meri

Our Prengky & Ilintria got married on the 30<sup>th</sup> June. They had their wedding here in our village hence about 800 people attended. Because of our semi lock down we were in, only a few of their relatives could attend but all of us here definitely made up for it. We had a lovely service in the morning and reception in the evening. Preparations were going on the whole week making it extra busy for everyone but it was all worth it. They too are a lovely couple. Prengky works in our workshop responsible

for all sorts of things and Ilintria teaches at our school. They too live now across the road from the training centre. Our Hesi got engaged to Musa. They met each other while they were in university. Musa is living now here in our

Our Prengky & Ilintria.

village and helping out with all sorts of jobs that need doing. Hesi is teaching at our school. Not sure when they are getting married yet but I am sure we will hear about it soon.

Musa and our Hesi.

No babies were born in the last 3 months but more grandchildren are on the way 😊.

Our Jordan

**Don't be afraid," he said, "for you are very precious to God. Peace! Be encouraged! Be strong!" Daniel 10:19**

Our Repa.

People look everywhere except to God for happiness and fulfillment, pursuing possessions, recreation, and relationships. In reality, only God can truly satisfy the deep longings of the soul. Look first to heaven, to the Most High God. He will meet your spiritual needs, not all your materialistic wants.

On Good Friday we had an early morning service at our river. People everywhere need to hear and know the significance of this day and not allow it to become just a day off on a long weekend. We all sang a number of songs and heard the Word of God preached about what happened such a long time ago, how Jesus (also called “Immanuel” – meaning “God with us”) was murdered, yet He willingly sacrificed himself on that cross and by doing so paid for the sins of every human being who repents and believes in Him. After the service 84 young people were water baptized which was an awesome sight. How glorious to see so many youngsters say yes to Jesus and thanking Him for what He did for us all.

There was great joy in our village as so many were water baptised. What an incredible blessing to witness.

Our new pickup truck, a fantastic gift thanks to some wonderful people. Thank you Lord.

Some of our garden team proudly showing off their produce, making sure we have fresh fruit almost every day. Photo left: Our Oga trying to lift up just one of our giant pineapples.

Christ will return and bring total victory to all who trust in Him. If we are ready, we need not be concerned about when He will return. We should stand firm, keep working, and wait for Christ.

I am leaving you with a gift – peace of mind and heart. And the peace I give is a gift the world cannot give. So don't be troubled or afraid. John 14:27

## Building Progress:

Within the three months that have just passed a lot of building activity has been accomplished. We are trying to urgently complete a number of children's homes so that we can move a lot of children from the training center area so that new children can move into the training center facility. Titus house is almost finished. Perhaps another 2 weeks of finishing touches and then 25 children and youth can move into this fantastic house. Ezra house and Nehemiah house still need another 6 weeks before we can move anyone in there and David house and Jonathan house need a bit longer than that, but we are getting there. It's been a huge job particularly because these homes are being built while many other infrastructure projects are being built at the same time.

Trusses going up on our primary school undercover area.

Jonah house is extensively being renovated and turned into a children's home as well. Progress is going well and once finished it will be able to house 20 children and youth with house parents.

The primary school undercover area is a massive job for us but it's coming along wonderfully as you can see on the photo. Trusses and roof sheets are in place and now we are focusing on getting the

ceilings and lighting done. Gutters are on hold as they are still in Kuching. Please continue to pray with us that trucks filled with building materials will continue to miraculously arrive. Extra classrooms will be built between some of the current buildings to give us more room. The old rusted fencing around the school property has been removed making way for an entire new non-rust, non-paint fencing. A very important structure as the school is on a hill with steep slopes and valleys all around it. It would be rather dangerous without fencing. We are still looking at least 6 months before this project is finished.

Ezra house & Nehemiah house in the making.

David house and Jonathan house. These are built right next to our high school so there will always be somebody on the school premises.

More roads and road gutters have been completed which is a massive task on our very hilly property but awesome to see the progress. Yet still a long way to go.

The Jair house, built for 12 couples or families is finally completed and already almost full. This building is opposite to the training center where these couples help out with the running of the training center. Eventually some of these couples will become house parents.

Our church building opposite the training center is also undergoing some changes. The building is already too small for our services. We decided to take out one wall so that the outside undercover area becomes one with the church hall. The wall will be replaced with a wall of sliding doors which can be opened when more room is required. This will solve our immediate space shortage problem.

**Because we hear the Bible so often, we can become dulled to its words and immune to its teachings. Instead, we should listen carefully to every verse and ask the Holy Spirit to help us answer the question, How does this apply to my life?**

As believers, we should take advantage of the opportunities we have and do what we can for Christ instead of worrying about what we cannot do.

Demolishing our home in Nanga Pinoh.

### Our Home in Nanga Pinoh:

Already for a couple of years we have been trying to sell our house in Nanga Pinoh, a small town about 17km from our village. We built the house about 16 years ago for our high school students. Because we didn't have a high school yet in our village we had to transport our youth to that town but because each day it took 2-3 hours, one way, to get there due to the road being so bad we decided to rent a house at first but after a while we realized it was totally inadequate for the amount of youth we had and it was overrun with rats that were chewing the fingertips of our youth during the night when they were asleep. When we found out we knew we had to build something fast. We didn't have any money to build anything but God made a way where there seemed to be no way. The house was built with a frame of iron wood, cement walls and steel roof sheets and for many years the house has been such a blessing for so

White ants have been busy destroying our home.

many youth that came through their high school years until we opened up our own high school on our property. Hence we had no more use for it so thought best to sell it. However, of course we prayed about it a lot and didn't get a real go ahead to sell it but also no clear indication what the Lord wanted us to do with it. But because of the financial crisis and the Corona virus, real estate came to a halt, hence there were no buyers. In the meantime we had to have some of our guys live there for security and the house had to be maintained and looked after which kept costing us money.

Last December while visiting and ministering in some of our remote villages, the Lord showed me that there was a great need to look after families who came to Nanga Pinoh with family members needing hospitalization yet had nowhere to stay. It already cost them one to two month's wages on travel costs to get to the hospital and then had to find accommodation in a cheap hotel which was still too expensive for them. Sometimes they had to stay for weeks at a time. All of a sudden it dawned on me that we had such a facility to help people in such need. After more prayer we believed this is what the Lord wants us to do hence we made a start to renovate the house, to make it suitable for such a ministry BUT after a thorough look at the condition of the house we came to discover that much of the framework was eaten away by white ants (as you can see on the photo) and only just standing up because of some other materials that covered the frames. A bit of a shock to say the least. As a result we had to demolish the entire house and start from scratch. Am I glad we didn't sell the house. That would have been devastating for the new owner. While I am writing this we have started digging out the foundations for the new building. It's going to be a huge job, on top of all the other projects that we have going in our village but a start has been made and no doubt eventually it will be finished and ready to help many families in need. Please pray with us for much wisdom how to build this building and for the Lord's anointing on the ministry which will help hundreds of families from remote regions coming to town for medical treatment. We will be naming the home "ABRAHAM HOME".

Building new foundations for our Abraham house.

### Land Purchases – Progress:

Unfortunately there have been no land purchases in the last three months. We remain vigilant in our prayers for the remaining pieces of land that we believe the Lord wants us to obtain. Thank you for praying with us.

**This is my command – be strong and courageous! Do not be afraid or discouraged. For the Lord your God is with you wherever you go.**

Joshua 1:9

Susi teaching our Selli some sign language.

Let's give Him thanks together:

< For the 84 young people who got water baptized at Easter time. It was an incredible memorable day to see so many lives say yes to Jesus, confirming their love for Him and desire to serve Him.

< For all the salvations and baptisms in the last 3 months in the various villages and tribes under our care. God is so good.

< For six trucks (2 lots of 3 trucks) that arrived from the border filled with wonderful building materials, household goods, school materials and food supplies. What an incredible blessing.

< For the new 100 KVA Generator that turned up at our place. Absolutely fantastic. A huge thank you to the people that made this possible.

< For the weddings of Nasius & Meri and Prengky & Illintria and the engagement of Hesi & Musa. All great couples who love serving God.

For donations and/or sponsorships please have a look on our websites [www.livingwatersvillage.com](http://www.livingwatersvillage.com) & [www.heyboer.org](http://www.heyboer.org) under "donations" and click on your country for details.

< For all our students who have graduated from either 6<sup>th</sup> grade primary school, 3<sup>rd</sup> grade junior high school and 3<sup>rd</sup> grade senior high school. All have done fantastic and are looking forward continuing their studies. All our students from other classes are still in school for a few more weeks. They will be having exams very soon.

< For the wonderful rain we have been receiving almost every day.

The dry season was a very short one which is wonderful. The annual burning of the rain forest which always occurs during dry season came to an abrupt halt because of the frequent heavy rain falls. Fantastic for people's health. Fresh air and fresh water, what a blessing.

< For the awesome crops of vegetables and fruit which are being harvested in our orchards and vegetable gardens every day. Our garden teams are doing an incredible job.

< For the wonderful healing of Pak Picin and Yolanda and

Amel's health improvements as well as the general health of all our children and youth here.

< For funds that arrived to finish the 12 homes for married couples and also funds that arrived to finish Titus house.

< Funds that arrived for one pickup truck.

Our book "Miracle Zone in the jungles of Borneo" is available now in many countries. Please check on our website [www.heyboer.org](http://www.heyboer.org) to see how you can order and purchase via the internet. Makes a great gift for anyone.

Have you recently moved and not let us know your new address yet? Please email us on [ronnyheyboer@gmail.com](mailto:ronnyheyboer@gmail.com) to let us know your new address or write us:  
P.O. Box 3203, 93762 Kuching, Malaysia.  
Thanks for being a blessing.

Please pray with us:

< We urgently need a dentist to come and do some work on many of our children's teeth, particularly all the new children that have arrived within this last year. The Covid virus has prevented dentists getting here.

< For continued protection from this dreaded Covid virus.

< Please pray with us for all our pregnant mums. Our Sumanti and Mardiaty are about to give birth.

Please pray that they will have a quick and uncomplicated birth.

< For our Bible College which is ready to commence in a few months' time. Already 38 people have registered to start with us which is awesome. We still require a lot of paperwork from various government departments but are confident that all will be ready by the time we commence. Please pray also for sponsorship for each student.

< For the remaining pieces of land we believe the Lord wants us to have. Still quite a few that need to be purchased.

< For funds to arrive for the foundations for the High School auditorium. Est: US\$20,292.-

All of us here in our village thank you all immensely for your huge input in the lives of all our children and youth. You are a blessing. Thank you again. May our Lord Jesus Christ continue to bless you abundantly. Ronny, (Kay in Australia) and all our children, youth and team at LWV.

< Funds for the foundations of 17 new Children's homes. Est: US\$10,496.- each.

< Funds to seal another two km of our roads. Est US\$22,392.-

< For funds to come in for 1 more new 100 KVA generators from the UK. Est: US\$33,605.-

< Funds to arrive for another pick-up truck to carry goods. US\$31,791.-

< For our future airfield with all the required facilities, which is on hold for now due to the urgent need to keep building more accommodation buildings for new children arriving.

Now may the God of peace make you holy in every way, and may your whole spirit and soul and body be kept blameless until our Lord Jesus Christ comes again. 1Thes 5:23
